These unaudited condensed interim consolidated financial statements (the "Interim Financial Statements") for the three and six months ended June 30, 2024 and 2023 have been prepared based on accounting principles applicable to a going concern, which assumes that the Company will be able to continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of business. The Company is a resource exploration stage company, which does not generate any revenue and has been relying mainly on equity-based financing to fund its operations. The Company has incurred a net loss of $14,071,137 as at June 30, 2024 (June 30, 2023 - $7,709,639). As such, there is a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. These Interim Financial Statements do not include any adjustments to the amounts and classification of assets and liabilities that may be necessary should the Company be unable to continue as a going concern, and any such adjustments may be material.
